The Indonesian government officially released a tax stimulus package to minimize the impact of the Coronavirus pandemic (Covid-19) on the people's purchasing power and national economic growth. who obtain KITE facilities. For the exporters, there is no limit on the value of restitution, while for non-exporters, the value of the restitution is IDR5 billion at maximum. Similar to the other facilities, there are a number of conditions and requirements that must be fulfilled by Taxpayers, as follows:

1. Have a specified KLU code and/or have been designated as a KITE company.
2. Submit a refund of Periodic VAT Overpayment Return with a maximum amount of overpayment of IDR5 billion.

Taxpayers who meet the criteria and requirements will be granted a refund and automatically determined as a low-risk VAT-Registered Person (Pengusaha Kena Pajak/PKP). Thus, Taxpayers are no longer need to submit applications for the determination of low-risk VAT-Registered Persons and the Director General of Taxes no longer need to decide ex-officio. In addition, low-risk VAT Registered Persons are also facilitated by the elimination of the requirements to carry out certain activities such as exporting taxable goods and services, as well as transfers to collectors or transfers that are not subject to VAT.

### Gradual Cuts on Corporate Income Tax

The government cuts the Corporate Income Tax (Pajak Penghasilan/PPh Badan) tariff to 22% for the year 2020-2021 and dropped back to 20% starting in 2022, from the previous rate of 25%. While for the resident taxpayers in the form of publicly traded companies (Perseroan Terbuka/PT) with the number of shares traded on the stock exchange at least 40% and meet certain requirements, can obtain an additional discount 3% lower than the new PPh tariff.

The policy is officially effective as of 31 March, 2020 following the issuance of Government Regulation in Lieu of Law (Peraturan Pemerintah Pengganti Undang-Undang/Perppu) Number 1 of 2020 concerning State Financial Policies and Financial System Stability for Handling Pandemic Corona Virus Disease 2019 (Covid-19) and / or In the Context of Facing Threats which endangers the National Economy and / or Financial System Stability.
